**TECHNICAL
BULLETIN**

Date: June 5, 1979

File Reference: D.I.B. "E" - No. 1546

File Duration: Permanent

To: All Gravely Dealers, Branches and Distributors

Subject: **New Wear Strip for the 28", 34", 38" & 44" Snowblowers**

A new wear strip is available with adjustable hole locations which allow the snowblower reel to be raised.

The new wear strips will fit all 1978-79 snowblowers and will be included in the 1979-80 models. The old style wear strips can be used for servicing the 1975, 1976 and 1977 snowblowers.

The wear strips are available under the same part number as used in the past as they are interchangeable.
