

Gravelly's quality line of grounds maintenance equipment includes two- and four-wheel tractors, the Pro Series of out-front cutters and a range of attachments for year-round use. And over seventy years of experience goes into making a Gravelly the best grounds care value available. Get a hands-on demonstration of a riding tractor, two-wheel tractor or our Pro Series today.

The Professional-H (Hydrostatic)

Built for the homeowner who wants a lawn with a professionally maintained look, the Gravelly Professional-H is a tough tractor built for years of dependable service.

The Professional-H is powered by a strong Kohler 18 hp twin-cylinder gasoline engine. And you control your speeds smoothly and efficiently with the hydrostatic transmission.

Versatile Performer. There's a range of attachments that keep your Professional-H working. They include a 6-bushel BaggerVac, an all steel utility cart, a 54" Dozer Blade, plus a 48" two-stage SnowBlower and Windbreaker Cab.

Front and center PTOs deliver power to attachments. The attachments can be raised and lowered easily from the driver's seat with the hydraulic lift.

Professional – G Series (Gear Drive)

Six rugged tractors to handle any grounds maintenance job you can think of. From professional mowing to snow removal . . . from tilling to cultivating . . . there's a total system of over 20 attachments for "G" Series tractors – all designed for year-round use.

Unique Design – from Rear Engine Mount to All-Gear Drive. The "G" Series tractors incorporate many strong, performance features. Like our *rear-mounted engine* — for even more traction and stability. Like our *all-gear direct-drive power train* with no belts or chains to slip, break or need replacement. And like our one lever instant forward/reverse for easy maneuvering in tight spots.

The 2-Wheel Tractors

There are over 20 quick-mounting attachments custom-engineered to work with the 2-wheel tractor and give year-round versatility. The Gravely 2-wheel tractor is designed to handle almost any grounds maintenance chore easily. And deliver professional results.

Durability by Design. Gravely 2-wheel tractors feature an all-gear direct drive transmission. There are no belts to slip, break or replace. Controls are located for operating convenience, and instant forward/reverse makes it easy to maneuver in tight spaces. And a low center of gravity design makes the 2-wheeler an outstanding hillside performer.

Lawn Tractors

Five Gravely Lawn Tractors are designed to give you professional results, economically. You can choose a 12 hp Briggs & Stratton with either a six-speed gear drive or variable-speed hydrostatic transmission. Both transmissions deliver smooth, efficient power for the right speed and control you need for maneuverability. Add a 32" or 38" deck and you're ready.

For the discriminating buyer, there's the Model 1238-H with 12.5 hp Kawasaki engine, hydrostatic transmission and 38" deck.

Mow and More. A range of specially designed attachments lets you keep your lawn tractor in use all year. Optional equipment includes a Three Can Catcher for grass and leaves, an efficient dethatcher, a 36" Two-Stage Snowblower and a 42" Dozer Blade.

The Pro Master. Big jobs are small work for the Pro Master. These out-front cutters produce a smooth, quality cut, have excellent trimming capabilities, and give the operator clear visibility of the area to be mowed. The Pro Master is designed for riding comfort, easy operation, long service life and low maintenance. Most of all, they're built to save you time on the really big jobs.

The Pro Series

Gravelly designed and built the Pro Series specifically to meet the needs of the professional cutter. The Pro Series includes a range of power units, out-front mowers, and optional attachments for grounds care needs. Featuring Pro and Pro Master models, the Pro Series gives you efficient performance and a low cost per inch of cut.

The Pro. The Pro out-front mowers deliver maximum maneuverability and great versatility. The Pros are built of heavy gauge steel, equipped with rugged transmissions and powered by reliable commercial engines.
