

NEW

from **GRAVELY**
NEW POWER — NEW PERFORMANCE

New 26 hp. Gravely GMT 900 with 72" rotary mower attachment.

THREE NEW RIDING TRACTORS! IMPROVED WALKING TRACTORS!

A new intermediate tractor, 26 horsepower, that gets the big jobs done fast . . . two new four wheel riding tractors — the 816T and 818T — powered by quiet 16 and 18 horsepower twin-cylinder engines . . . and a new series of convertible two-wheel tractors that are even better than the Gravely tractors that have been known as the quality leaders for many years.

All with Gravely's famous features of all-gear direct drive, instant forward and reverse, all designed to do the tough jobs better and to last longer. Gravely offers you both powerful tractors and rugged attachments to give you the satisfaction of work well done. Plus the knowledge that your investment will pay off for you for many years to come.

New 18 hp. twin cylinder, 818T with 50" rotary mower attachment.
Bottom
Improved 8 hp. 5260 tractor with new, improved rotary plow attachment.

Here's why your first Gravely could well be your last. . . .

THE NEW GRAVELY GROUND GMT 900. THE BIG ON

The new Gravelly GMT 900, shown with optional category 1, 3-point hitch, 72" rotary mower attachment.

26 hp. engine

4-cylinder, water-cooled engine with famous Gravelly all-gear direct drive from engine through transmission, to wheels and attachments.

FEATURE

8 forward speeds, and reverse in every forward gear, by simply moving one lever.

Independent wheel brakes

Low center of gravity

Full-time power steering

Live independent and positive all-gear direct drive power take-off.

Delco freedom battery

BENEFIT

Provides quick and accurate ground speed control, maneuverability, less operator fatigue.

Delivers improved steering control, provides shorter turning radius.

Provides better stability.

Provides ease of operation and reduced operator fatigue.

Permits powered attachments to function independently of tractor — attachment does not stop when tractor stops.

Reduces battery maintenance.

S MAINTENANCE TRACTOR E FOR THE BIG JOBS!

Big 72" Rotary Mower Mows up to 22 Acres a Day.

When you have acres of grass to mow, the object is to get the job done as quickly and as efficiently as possible. That is why Gravely has introduced the GMT 900 — a 26 horsepower, intermediate size tractor with a 72" rotary mower attachment.

With large acreage mowing two things need to be considered — first, the operator's comfort and convenience and second, the ability to get the job done fast and keep on doing it for a long time to come.

The Gravely GMT 900 is designed for your ease and convenience . . . big, comfortable spring-mounted seat; all controls grouped within easy reach; hydraulic attachment lift and remote controls; power steering — effortless as well as precise control. Instant forward and reverse gives you instant direction control and since there is only one lever to move you won't be as tired at the end of the job.

And the Gravely GMT 900 carries on the Gravely tradition of all-gear direct drive. There are no belts to adjust or replace between the engine and the attachment. This gives you more efficient power, less downtime.

Powers Many Other Tools

The Gravely GMT 900 is a versatile tractor, with an optional category 1, 3 point hitch. You can use many standard agricultural and specialty tools. With a three-spool hydraulic system that only requires a touch of the lever, you control attachments front, center, or rear.

Built to Last

Gravely has long been famous for the durability and longevity of its equipment. The Gravely GMT 900 is designed to give you the same powerful performance over a long period of time that has made Gravely's name synonymous with durable and dependable equipment.

If you have a lot of mowing to do, you owe it to yourself to see the Gravely GMT 900: to ride it, to see for yourself how this powerful tractor and its attachments can meet your needs.

IMPORTANT POINTS TO CONSIDER

The Dealer: Your Gravely Dealer is an expert on lawn and garden equipment. He has spent many years matching the exact equipment to the needs and wants of his customers, and knows from long experience how to do the best job of meeting your own requirements.

Consult with him. You can rely on his experience and judgment, for it will lead to greater personal satisfaction and save you time and money in the long run.

Service: All mechanical equipment, no matter how carefully designed and manufactured, requires periodic service from time to time. Gravely Dealers stock Gravely factory parts, have Gravely-trained mechanics to fulfill any service need you may require for your Gravely tractor.

The Company: Gravely has been **exclusively** in the business of manufacturing, selling and servicing Gravely lawn and garden equipment for over 55 years.

Gravely has a reputation among its owners and its competitors alike for producing high quality, dependable and long lasting power equipment.

That reputation is one of the many reasons why Gravely is your best buy.

Demonstration: The best way for you to be **sure** you are making the right investment, is to see the equipment you select actually performing under the conditions to be encountered on your own land.

Gravely is glad to demonstrate its tractors and attachments. Because Gravely can prove, by demonstration, that Gravely equipment will meet your needs and will give you the kind of satisfaction that will be remembered long after the price has been forgotten.

Call or see your Gravely Dealer **now**. Use his expert, experienced judgment to help you match the exact Gravely equipment to your needs and wants — then ask for a free demonstration to confirm your choice.

Gravely will prove itself to you — and you will join the thousands of satisfied Gravely owners that continue to build our reputation for quality, performance and durability.

GRAVELY OFFERS YOU A CHOICE **POWER SYSTEMS** TO PROLONG LONG LIFE, MORE LONG-RUNNING

Gravely 818T Tractor with 50" rotary mower attachment.

GRAVELY. 800 SERIES 10, 12,
16, 18 HP. RIDING TRACTORS

CHOICE OF LAWN AND GARDEN PROVIDE TOP PERFORMANCE, MAXIMUM VALUE FOR YOUR MONEY!

Powerful, Dependable Riders do the Work While you Ride and Guide

Gravely offers you a choice of from 10 to 18 horsepower tractors, to fit your exact power requirements.

The two new Gravely tractors, the 816T and the 818T, feature 16 and 18 hp. twin-cylinder Onan engines which provide smooth operation and a quiet ride. You will enjoy solid comfort and confidence as you steer a sturdy Gravely through a four season series of tasks. You will be amazed at the maneuverability and pleased with the instant control. Instant control because one lever, without foot clutching, gives you forward, neutral or reverse in one easy motion.

You will enjoy the positive all-gear 8-speed transmission which allows you to handle any job from tough mowing or snow removal to lawn mowing, at the most efficient speed.

Enjoy a comfortable, stable ride because you have full-length foot rests, a padded seat and a tractor designed with a low center of gravity.

Gravely 818T Riding Tractor with hauling cart and 50" Rotary Mower attachments.

818T Gravely Riding Tractor with 44" Snowblower attachment with optional tire chains, wheel weights.

Gravely 816T Riding Tractor with 40" Front Mount Mower attachment, optional Front Drive Kit and Front Mount Kit.

Choose the Tractor and Attachments to Fit your Jobs

Not only does Gravely offer you a choice of horsepower, Gravely also offers a wide variety of attachments to handle practically every lawn, garden and grounds maintenance job.

Gravely's attachments are built with the same tradition of rugged construction and high performance as Gravely tractors. With a Gravely riding tractor you can mow, haul, till, move snow, and do a wide variety of other tasks with one power unit.

Discuss with your Gravely dealer the jobs you have to do. He will be glad to help you decide on the right tractor and the right attachments to give you maximum satisfaction for a long time.

GREAT GARDENING, MOWING, ALL-YEAR ROUND VERSATILITY — BUILT FOR THE TOUGH JOBS

Need a tractor to plow the garden . . . and minutes later be mowing the lawn? A tractor that works for you every season of the year with rugged attachments that save you hours of drudgery?

Then Gravelly two-wheel, convertible tractors were designed for you. They do a variety of jobs well — and have been performance-proved and tested and improved for almost forty years.

With a choice of horsepower - 8, 10, or 12; recoil or electric start; two-or four-speed transmissions, Gravelly convertible tractors can meet your needs with rugged, functional characteristics that have built a loyal family of thousands of satisfied Gravelly owners.

One of the many reasons for Gravelly owners' loyalty to Gravelly tractors is the efficiency of Gravelly's all-gear direct drive, right through from the engine to the attachment. And its instant forward and reverse which gives you precise control and maneuverability — and your choice of ground speeds to fit the job.

Attachments to get your Tough Jobs done Fast

Gravelly two-wheel convertible tractors operate a variety of attachments to handle your year-round lawn and garden needs. Choose from the rugged all-gear-drive 30" rotary mower, the all-gear-drive rotary plow, the rotary cultivator, the all-gear-drive snowblower, and many other Gravelly power attachments that give you unmatched efficiency and performance. You will handle practically any lawn and garden grounds maintenance job, with the satisfaction of knowing that you are using superior equipment for superior results, which will save you money in the long run.

Because Gravelly attachments — like Gravelly tractors — are built to last for a long, long time.
