

NEW!

Fast, Efficient POST HOLE DIGGER for the Gravely Tractor

Spotted, Ready To Dig

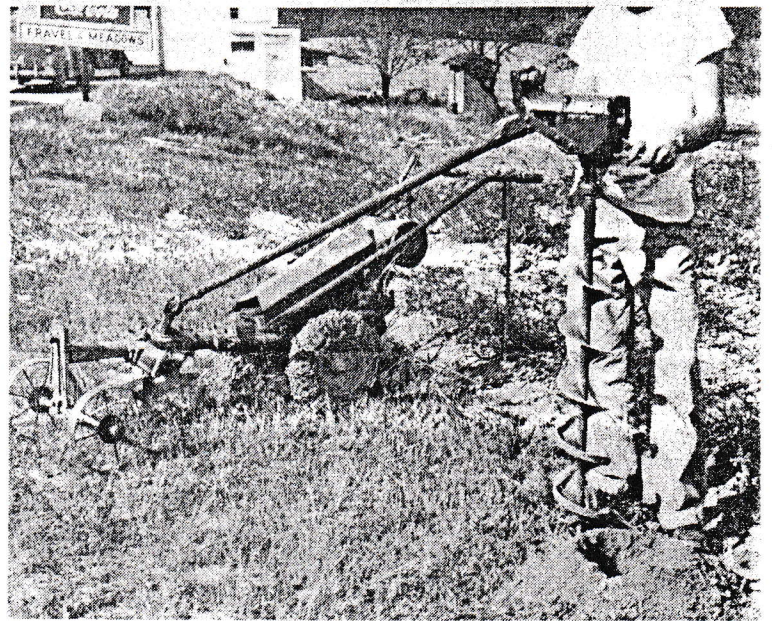

Dirt Begins To Fly

Halfway Down

All The Way...40" Deep!

Faster, Better, Straighter Fencing With LESS Time and Work!

New Post Hole Digger for the Gravely Tractor makes this tiresome, time-consuming chore faster and easier! The back-breaking work is done away with--POWER does the work!

Reduced Cost

It takes a good man about 20 minutes to dig a regular post hole with hand tools. You dig the same post hole in THREE minutes with a Gravely and the Post Hole Digger attachment! Your investment in labor is less than 1/6th--you get almost seven times as many post holes in the same length of time!

Easy Spotting

No jiggling and maneuvering to spot the auger--the telescoping drive shaft and the universal drive lets you spot the hole quickly and easily with a 3½ by 8 foot area! You dig a post hole on each side of the tractor before you move it!

Rugged Construction

Grease Bath gear case, heavy construction of heavy-duty, lightweight castings, tough, long-wearing universals assure you of many years of heavy-duty service.

FREE DEMONSTRATION
