THROW AWAY THAT SNOW SHOVEL !

Why spend hours of back-breaking work moving snow when Gravelly Power Equipment does the job for you easier, faster, better!

With your own snow removal equipment you move your snow when you want it moved--you don't have to depend on anyone else!

Inside this folder is the answer to your snow removal problem! See how your snow removal job is made easier, faster!

ONE TRACTOR--21 ATTACHMENTS!

The Gravelly not only moves your snow with little effort, it also handles almost every lawn, garden, field and farm task. Twenty-one tools means you get year-round use of your equipment.

In the spring, plowing and planting--in the summer mowing tall weeds, lawns, pasture--in the fall late plowing, final mowing, and in the winter snow removal.

In no other equipment do you get the versatility and the downright ruggedness of Gravelly. All-gear drive, reverse, completely enclosed, simple controls--no wonder our users call it the "world's finest small tractor!"

Read about the equipment. Then check the postage free card for literature or demonstration. No cost, no obligation.

But do it today! Winter snow is just around tomorrow!

Yours sincerely

GRAVELY

SNOWBLOWER has an adjustable spout to throw snow in any direction, any angle selected. All-gear drive, steel cut, hardened bevel gears with splined steel shafting, ball bearings at all points of wear. Runners allow you to skim snow from any surface, even gravel and blue-stone drives. Without runners you clear the snow down to the surface of macadam or concrete.

POWERFUL 5 HP MORE SNOW FA

"In the recent record and extreme snowstorm, at no time was our driveway or sidewalk blocked, or was the Gravelly unable to handle the 25 or 26 inch snow that we had . . . we are very pleased that we had a Gravelly."
JAMES R. SHELDON
Long Island City, New York

Power to Spare!

The worst mistake you can make is to get equipment that doesn't have the power and the traction to do a good job. The Gravelly, with its big Gravelly 5 HP Engine, all-gear drive, power reverse, completely enclosed mechanism gives you power to spare.

No belts or chains to slip, freeze-up or break in snowy weather--instead, splined-steel shafts and gears deliver dependable power to the job regardless of the weather!

Year Round Use—21 Tools

Yes, with Gravelly Equipment you have year-round use. 21 tools means that your Gravelly will be saving you work and time 12 months of the year--there is no idle time for Gravelly.

The sketches below indicate a few of the attachments. From mowing lawns in the spring and summer to snow removal in the winter, your Gravelly is working to make your life easier and give you more leisure, without back-breaking

SNOW PLOW has a full 48" blade, adjustable right or left or straight ahead. Cleans average sidewalk in one sweep, drives in two. Renewable cutting edge on blade means the plow never wears out. Can be used for light bulldozing of trash, dirt, cinders, etc.

Haul 1/2 ton loads

Roll Lawns, Tennis

GRAVELY

*clears 1/4 mile drive
in just 25 minutes!*

GRAVELY MOVES FASTER--EASIER--BETTER!

Let it snow! You won't worry about delays and inconvenience when you have Gravelly Equipment!

When you have to get the driveway clear, or the walks and paths to the barn, chicken house or road cleaned off, remember this . . .

Under average conditions with a SNOW PLOW Attachment you clear a one-fourth mile driveway in 25 minutes! You clean a path or walk one-half mile long in 25 minutes.

The SNOWBLOWER takes the deep or successive snows from one-half mile of driveway in about 45 minutes--clears a full mile of driveway in a little over an hour and a half.

The POWER BRUSH keeps light snows moved aside in a little less time than the Snow Blower.

Yes, the Gravelly moves more snow, faster! Easier, because all you do is guide the Gravelly--Better because the Gravelly has the power and traction to do a good clean job on any surface--macadam, concrete, gravel, bluestone or dirt.

POWER BRUSH has full 38" sweeping width. Replacable bristles, quick pressure adjustment, choice of fine or coarse bristles. Used also for any sweeping job--sweeps **clean** the first time over!

Three Easy-to-use Tools!

You have your choice of three labor-saving, time-saving snow removal tools to fit your particular needs.

The Snowblower handles deep or successive snows. It moves snow up to four feet deep fast and easily. Successive snows are no problem because the Snowblower scatters the snow--or if it is necessary to bank it beside the cleaned area, the next snow can be blown over the top of the previous bank.

The Blade Type Snow Plow cleans the average walk in one sweep, driveways in two. Handles snow up to 18 inches deep, turning it left, right or straight ahead by a simple pin adjustment. Handy for bulldozing light dirt, cinders, etc.

Power brush sweeps clean the first time over, handles snows up to 6 inches deep, useful for general sweeping jobs in addition to snow removal.

These tools will save you time and work--get you out of the snow at your convenience.

FREE!

HOW TO SOLVE SNOW REMOVAL PROBLEMS gives you full details about Gravelly's Snow Removal Attachments for the Gravelly Tractor . . . Shows you how to make use of **POWER** in your snow removal. Yours for the asking--just check the postage free return card with this folder. Ask for your copy now!

*See the GRAVELLY
— no obligation*

The best way to judge any power equipment is to see it operate. You can see the Gravelly, at absolutely no obligation--have a demonstration on your own ground, under your own conditions. Just check the return card--mail it today!
