

E-Z RAKE

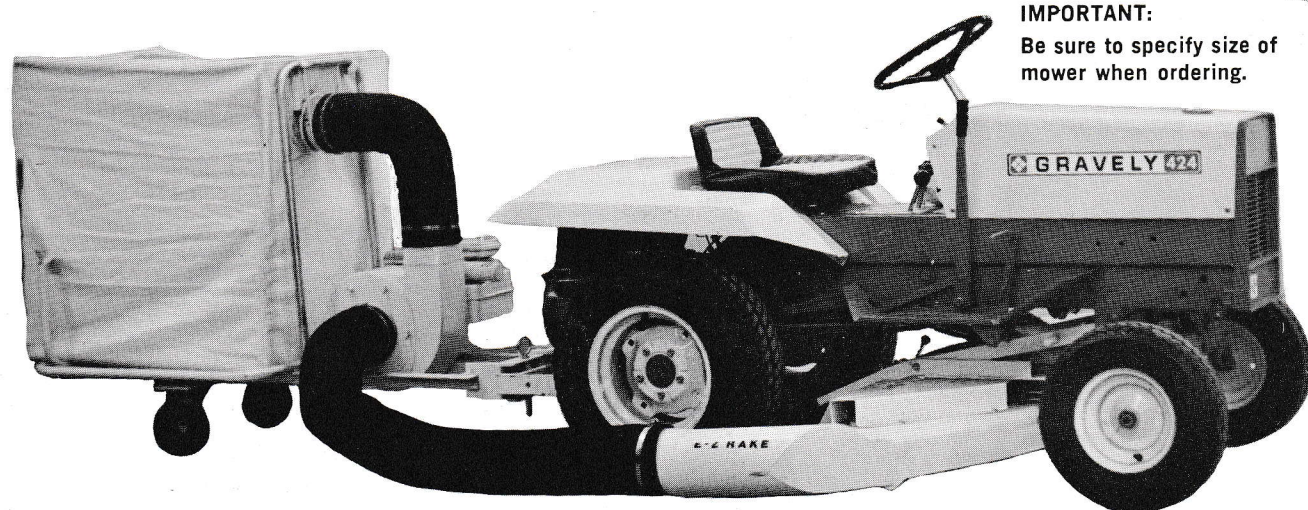

MODEL

30 Vacuum Sweeper

for use with

GRAVELY

GRAVELY LAWN & GARDEN TRACTORS

IMPORTANT:
Be sure to specify size of
mower when ordering.

E-Z Rake Model 30 Vacuum Sweeper is designed for use with Gravely Lawn and Garden Tractors equipped with underneath mount rotary mowers.

The E-Z Rake Model 30 Vacuum attachment is simple, quick and easy to attach and to use . . . dependable and efficient in operation. It is an ideal answer to the problem of *clean-up* involved in all lawn care—home, estate, institution or industry.

Your E-Z Rake Model 30 picks up debris; vacuums, pulverizes and compacts leaves and clippings; increases rotary mower safety; *saves many hours of labor!* NOTE: While the E-Z Rake Model 30 Vacuum is designed particularly for combined mowing-sweeping

operation of lawns, it can also be effectively used for vacuum cleaning driveways, runways, loading areas, etc.

Basic Model 30 E-Z Rake Vacuum Sweeper includes:

- 4 hp engine
- connecting hoses
- collection bag with vent and zipper, baffle, hose clamps
- Vacuum fan blade, blade housing and adapter boot
- hardware and frame for bag cart and engine mount

Accessory for 30 Vacuum:

Model 200 Vacuum Attachment for remote pick-up.
