## Gravely Shredders—Tractor Mounted—Self Powered

Model 9-GC—Gravely mounted and powered. Process wet or dry leaves, vines, stalks or branches. The balanced rotor has 24 hardened steel hammers (knives) free swinging. Each shredder standard with one screen having 1" diameter holes. Other screens available for special purpose grinding. Heavy duty ball bearings. Older tractors require quick hitch kit #11898E1 for mounting the shredder. Supported on a taper pin and driven by a universal jointed PTO shaft.

**Model 9-GC for two wheel tractors**

Shown on the right, Model 9-G for Gravely riding tractors. Series 424 and 810 gear drive. Series 400 tractors require tractor part 15840E1 to attach a 9-G. Series 800 tractors require Gravely part 1907SE1 to attach a 9-G.

**Model 9-G for Gravely 4 wheel tractors**

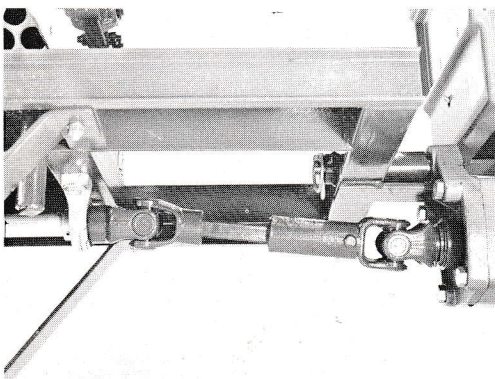

Model 12-GC log chipper, available as an attachment for Gravely two wheel tractors only. Use your tractor engine to provide more than enough power to grind heavy tree limbs, or shred organic waste.

**Model 9-P self powered  
4 hp or 5 hp shredder grinder**

**Model 12-P log chipper 6 hp. Will  
grind 3" thick logs. Also available as  
an attachment to 2 wheel Gravelys-  
Model 12-GC.**

**PTO shaft drive from tractor to shredder.**
