

# GRAVELLY

## Makes ~~F~~ ALL Jobs ~~E~~ASY!

### NOW with Amazing New Push-Button POWER!

Autumn is a busy time, the best time to do many landscaping, upkeep and maintenance jobs that make your home more attractive.

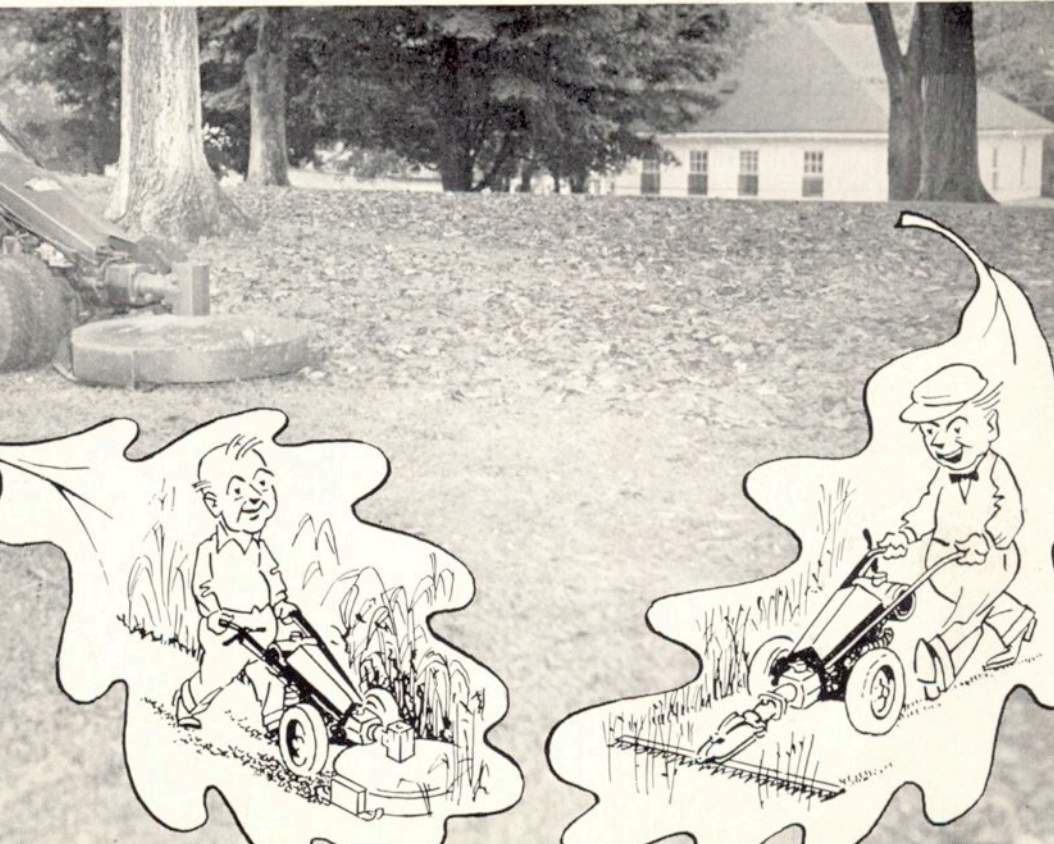

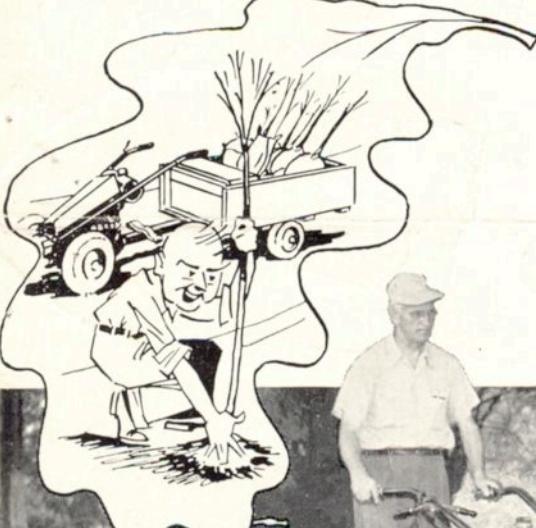

Now, with the Gravelly Electric Starter, you will have a new experience in ease and convenience in doing these fall jobs. Just the touch of your toe and POWER takes over! Your hardest jobs become easy . . . Gravelly does all the work!

With push-button power now is the time to catch up on many jobs that were "let go" during the hot summer. Without power equipment to make your time more efficient, there are many of these tasks that didn't get done!

And, of course, much of the work you do now will make Spring and Summer upkeep jobs easier and faster.

With so many things to do, and so little time to do them in, power equipment is a necessity. Just as much as in the Spring! The Gravelly Tractor and its 21 attachments—all used on the same powerful 5 HP Tractor—makes your fall work pleasant and productive.

The pages that follow will show you many ways Gravelly equipment can help you do all your Fall upkeep and maintenance jobs—quickly, efficiently, without drudgery!

# How Many of These Tough Jobs Are You Doing By Hand?

## PREPARING YOUR SOIL FOR A BETTER, RICHER GARDEN

Humus is especially important to your garden. This fall, attach your Rotary Mower to your Gravely, and mow your garden. This will mulch all the plants into finely shredded organic matter. Then plow your garden with the Gravely Rotary Plow. The plant material will be mixed thoroughly into your soil, enriching it.

And Fall plowing will allow Winter rains to soak in, to form a reservoir of moisture for next summer. Freezes will break up plowed soil, make it mellow—it will produce more, be easier to work!

## MOWING GRASS AND WEEDS NOW FOR EASIER SPRING MOWING

Mowing is important in the Autumn because uncut weeds and grass fall over and tangle, making mowing difficult in the Spring. Fall mowing, if done regularly, will prevent many weeds from seeding. Fewer weeds to fight next year! And mowing will prevent danger from brush fires—a hazard every Autumn.

The Gravely makes mowing easy—with more than twice the power of the usual power mower, the Gravely gives you a choice of mowing tools. Reel Mower, Rotary Mower, Gang Mower, Sickle Mower . . . all operated by the same Gravely Tractor.

## CUTTING FIREWOOD, MAKING A PROFIT FROM TIMBERLAND FARMING

During the Fall months you cut firewood, clear land, cut fence posts and mine props, perhaps even cut and sell some timber.

With the Gravely Tractor you have your choice of a Chain Saw or a Circular Saw—both operated from the attachment drive of the Rotary Mower.

With the Chain Saw, fell, trim, cut up trees for profitable timber products. With the Curcular Saw, you can clear land of unsightly sprouts and saplings . . . make more lawn, pasture or meadow.

The Gravely has the power to make these jobs easy—fast, and profitable.

## FALL PLANTING AND LANDSCAPING FOR MORE BEAUTIFUL GROUNDS

Fall is the best time for preparing new lawn, renovating old lawn, planting shrubs, preparing seedbeds for certain flowers and plants.

Your Gravely Tractor can do a host of these jobs. Its metal muscles will speed up your work, take away the drudgery.

When Spring comes, your work will be easier. You will have the satisfaction of being ahead of the season, instead of having work undone. You can face the many problems of Spring and Summer gardening and upkeep with confidence . . . because your Gravely will solve them for you, quickly, easily, efficiently.

# Make Leaves Vanish . .

## No More Leaf Raking or Leaf Burning!

Cleans average sidewalk in one sweep  
--driveways in two--EASILY!

Move the deepest snow almost without effort with Gravelly Snowblower!

One of the most discouraging jobs is getting rid of leaves. It is time consuming, seems like an endless task. From the time the leaves start to fall until the last leaf has left the branches, your lawn looks cluttered and unkempt.

But with a Gravelly Rotary Mower and its optional Leaf Mulcher attachment, you have a practical, easy solution.

Just run the Leaf Mulcher over your lawn and PRESTO! The leaves vanish! Ground into powder, they add humus to your lawn, keep it looking neat and tidy. You mow your lawn as you mulch your leaves! And with a Gravelly, it is almost effortless.

No more dangerous leaf burning--no more odorous hours as the acrid smoke of burning leaves annoy you and your neighbors.

Gravelly makes every fall upkeep job easy--gets them done faster!

### **Snow Removal Is Easy with a Gravelly**

After Fall, comes Winter--and snow. Your Gravelly offers you a choice of snow removal tools--a 48 inch Snow Plow, and a 26 inch Snowblower.

Don't risk a heart attack hand-shoveling snow--get your Gravelly NOW for the Fall jobs, and be prepared for quick, easy snow removal this Winter.
