ALLIED EQUIPMENT CATALOG

HABAN

SICKLE MOWER

Now your Gravelly tractor can take over another important task—heavy duty mowing in grass, weeds, brush, hedge-trimming,—with the Haban Sickle Mower attachment.

A unique and particularly valuable feature of the Sickle Mower is its full-floating action, self-adjusting the cutter bar angle to ground contour.

The mowing bar can be lever-adjusted to mow any angle from 45° below horizontal to nearly 90° vertical. This provides quick adjustment for steep banks or inclined road shoulders.

Fits Gravelly 800 Series Riding Tractors.

AMERIND-MacKISSIC

COMPOST SHREDDER

Use the shredder-grinder to process leaves, stalks, manure, garbage, weeds, vines, hedge cuttings, tree prunings into compost or top soil mulch.

The balanced rotor has 24 case hardening free swinging hammers, each with four cutting edges.

Fits any Gravelly 800 Series Riding Tractor or 2-wheel Convertible Tractor.

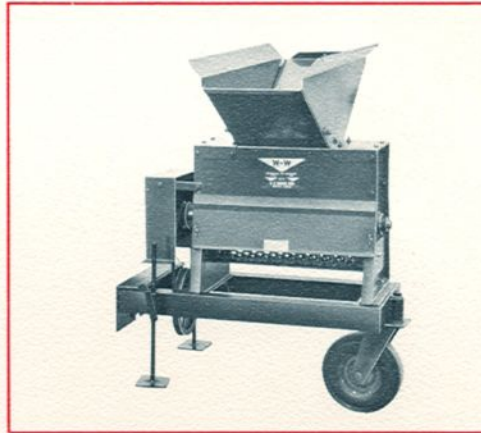

W-W GRINDER CORP.

GRINDER/SHREDDER

Ideal for grinding materials such as leaves, straw, hay, shrubs, tree trimmings.

The standard 3/4" perforated screen furnished with the unit is for grinding dry and friable material. With materials containing a high moisture content, larger perforated screens (1", 1-1/4", 1-1/2", and 2") are recommended and are available immediately from the manufacturer.

Attaches to any Gravelly 2-wheel Convertible Tractor.

ARPS

MINI-RAKE

The Mini-Rake is a handy tool for the person who has a lot of land to clear of stems and debris.

The spring steel "fingers" work the soil during lawn building, landscaping...clear brush, stones, roots...spread topsoil, distribute crushed stone, maintain beaches. Great for keeping gravel drives in shape.

It comes in a choice of two lengths to fit most any need; 4' length with 26 spring steel teeth, or 6' length with 40 teeth.

Rake can be set at five different angles making it easy to windrow material, then set at right angles to the row for gathering into disposable piles.

Fits any Gravelly 800 Series Riding Tractor.

MINI-BLADE

The Mini-Blade is a must for the person that does landscaping or yard maintenance. It saves hours of back-breaking work the year around.

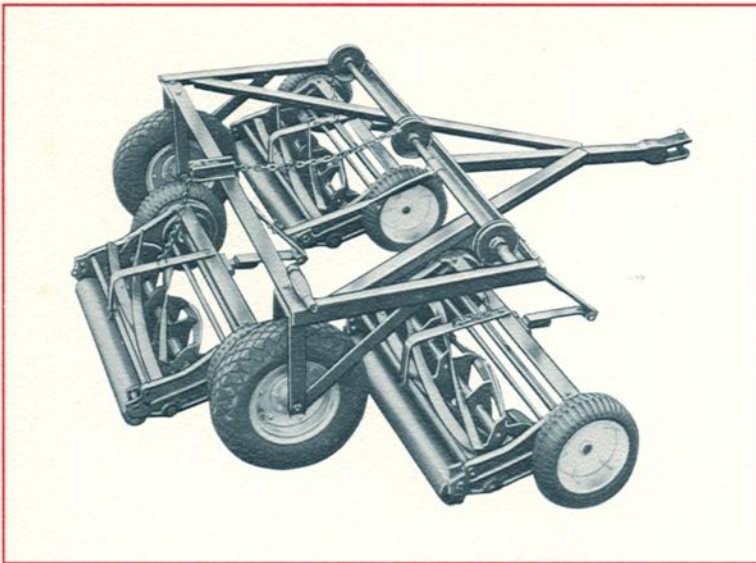

Use the blade for moving dirt, grading, back filling or snow removal.

It is made of tough, carbon steel with a curved moldboard. Has a strong, tubular steel welded frame; blades reinforced to resist twisting. Easily set to five different angles for both forward and reverse operation. The blade may be offset to the side to extend beyond the tractor wheels.

Another unique feature is that the blade is reversible for long, double-duty cutting life. Equipped with skid shoes.

Fits any Gravelly 800 Series Riding Tractor.

ROXY-BONNER

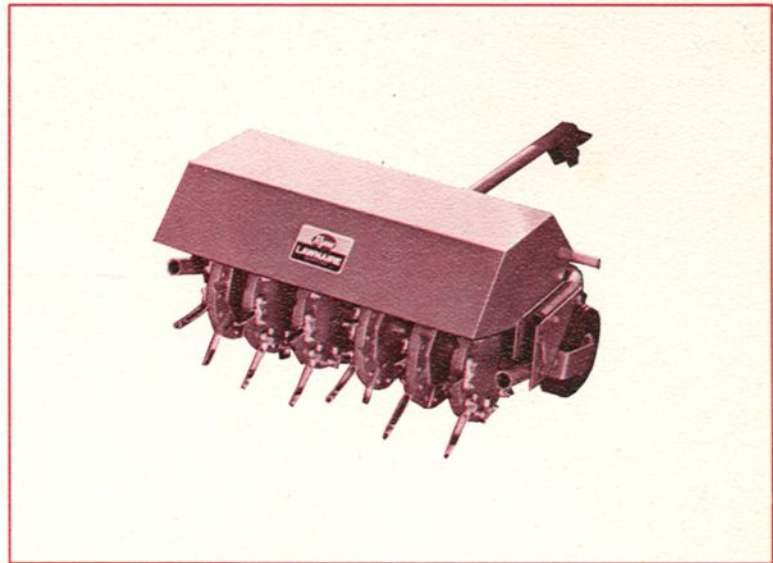

GANG REEL MOWERS

With the 72" or 60" Roxy Bonner Gang Reel Mower you can cut an acre of grass in just a matter of minutes, and move to another location with ease; the 72" mower has a self transport unit and the 60" has wheels that can be adjusted to give road clearance.

Great for keeping schools, estates, institutions, or driving ranges in tip top shape the whole season long.

Fits any Gravelly 800 Series Riding Tractor. Mowing speeds from 4 to 8 mph. Cutting swath: 72 or 60 inches. Cutting height: 1/2" to 2 1/8".

RYAN

LAWNAIRE-AERATOR

The Lawnaire's heavy wheels, mounted with coring, slicing, or renovating tines, cover a 36" swath. Coring tines pull soil plugs on 6" centers so that moisture, air and fertilizer have just 3" to penetrate in each direction to reach every grass plant.

Permanently attached transport wheels can be easily raised or lowered.

Attaches to any Gravelly 800 Riding Tractor.

KWIK-WAY

FRONT END LOADER

The Kwik-Way Front End Loader has been used successfully by Farmers, Residential and Park Ground Keepers, Contractors, Elevators, Nurseries, Motels, Industrial Plants.

You can add versatility to the loader by adding any one of the optional front end tools: a Dirt Plate, Snow Bucket, Tine Fork, Material Bucket, Dozer Blade, Poultry Blade, or Fork Lift.

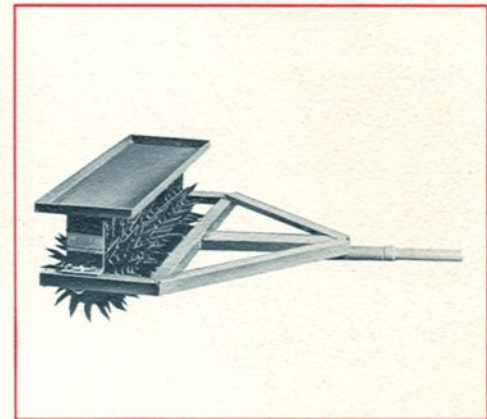

Some of the outstanding features are that the loader is self leveling, has double action cylinders with chrome plated shafts, lifting capacity of 750 pounds, frame-box type construction, independent hydraulic system, bucket level indicator, and float valve.

Fits any Gravelly 800 Series Riding Tractor.

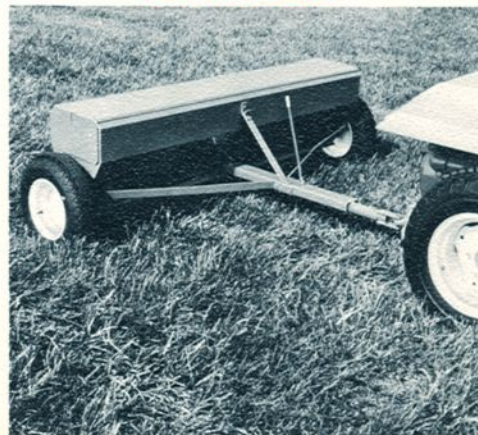

KENSICO

LAWN AERATOR

The Kensico Lawn Aerator has a spiking width of a full 32 inches. 16 discs that are 11-1/2 inches in diameter. Beveled spike teeth mounted on a rolled steel shaft that is spring loaded to prevent tearing turf on corners. Has seat for use with Gravelly Convertible Tractors, also fits any Gravelly 800 Series Tractor and 408 Lawn Tractor.

GARBER

5' SEEDER-SPREADER

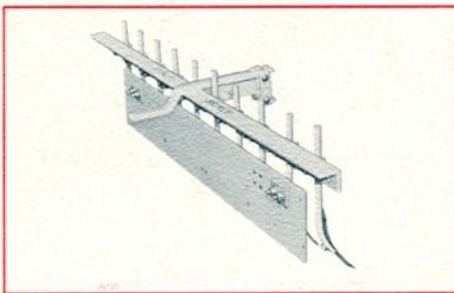

Ride in comfort as you seed or fertilize your lawn. Easy controls for even, accurate coverage of seed, lime or fertilizer... spreader is five feet wide for fast coverage. Dimensions: 72 inches x 40 inches x 20 inches.

Attaches to any Gravelly 800 Series Riding Tractor or 2-wheel convertible tractor.

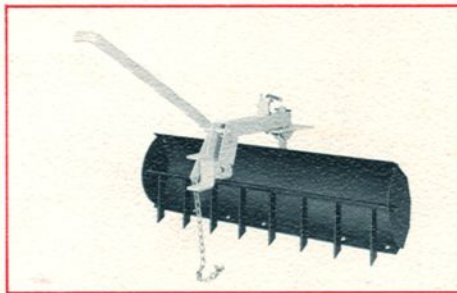

BRINLY-HARDY

POWER CASTER

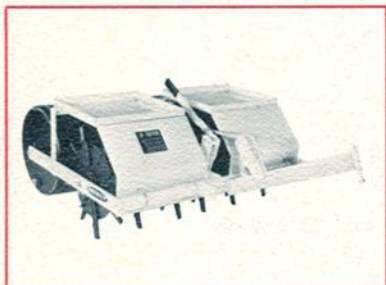

TOOL BAR

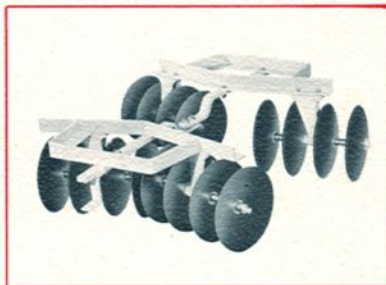

42" REAR BLADE WITH SCARIFIER

Brinly attachments make Gravely Riding Tractors more versatile in the garden or on the farm.

Plow with the 10-inch Moldboard Plow, then prepare for planting with the Lift Type Disc Harrow. In one operation, plant and fertilize beans, peas, cotton, corn, okra, and many other seeds with the Planter-Fertilizer Unit. Then cultivate your vegetables or field crops with the Brinly Cultivator.

ROLLER AERATOR

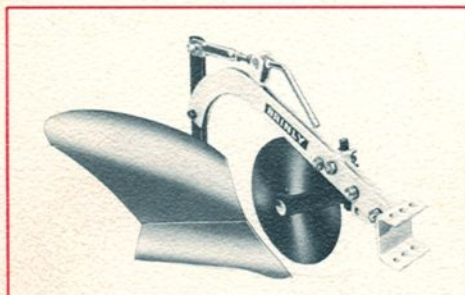

LIFT TYPE DISC HARROW

The Brinly Tool Bar, when equipped with the appropriate accessories, extends the use of your Gravely Riding Tractor to many operations—back filling, grading, discing, and covering.

Scarify and level your property with the 42-inch steel Rear Blade. Spread grass seed, or fertilize with the Power-Caster.

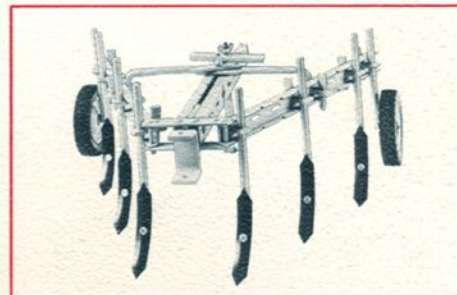

All attachments fit any Gravely 800 Series Riding Tractor.

10" MOLD BOARD PLOW

GARDEN PLANTER & FERTILIZER UNIT

ROW CROP CULTIVATOR

E-Z RAKE

MODEL 30, 4 HP VAC SWEEPER (also available, Model 31, 4HP)

The E-Z Rake Vacuum Sweeper attachments are simple, quick and easy to attach and to use... dependable and efficient in operation. They are ideal answers to the problems of cleaning-up involved in all lawn care—home, estate, institution or industry.

The E-Z Rake picks up debris; vacuums, pulverizes and compacts leaves and clippings; increases rotary mower safety; saves many hours of labor! Models with collection bags or that hook up to Gravely tractor carts.

Fits any Gravely 800 Series Tractor or the 408 Lawn Tractor.

MODEL 40, 4 HP VAC SWEEPER (also available, Model 70, 8HP)
