

GRAVELY

Home'n-Garden Sprayer

15 Gallon Capacity

**Lawn, Garden,
Tree, and Shrub
Protection**

Win the Battle against Insect Pests with This **GRAVELY** Home'n - Garden Sprayer!

Insects and weeds don't have a chance when you use the new Gravelly Home'n-garden Sprayer! You get rid of them quickly and easily...protect your lawn, garden, shrubs and trees. Old-fashioned hand and carry sprayers take too long to do the job--and take too much work! Gravelly power makes your spraying tasks easier, more efficient!

The Gravelly Home'n-garden Sprayer is just right for your jobs. It is inexpensive, but built with the ruggedness and precision that means long and effective service. With 15 gallons capacity and a spray pump that is specifically designed to handle corrosive and abrasive sprays, this unit will do your spraying jobs efficiently and dependably.

MANY USES

Not only does the Gravelly Home'n-garden Sprayer handle the routine spraying jobs, it also may be used for fly, mosquito and weed control, livestock pest control, and liquid fertilizing of lawns and gardens.

SELF PROPELLED AND MANEUVERABLE

The Sprayer attaches to the powerful Gravelly Tractor with only four bolts. There is a quick-stand for fast and easy attachment

You have no lifting, no carrying, no pushing to do...the Sprayer and Tractor goes to your job with nothing but a guiding hand. It is as slender as the Gravelly...will go easily down the rows of your garden, through gates and doors without difficulty.

OPTIONAL BOOM ATTACHMENT

An optional boom attachment makes weeding and liquid fertilizing of your lawn or garden easy. Six feet long, with five nozzles, it attaches quickly to the Spray tank, is controlled from the handles of the Tractor. It is adjustable in height with a range of 13 inches, from 11-3/16" to 25-5/16", may be used for garden boom spraying as well as lawn feeding.

Help yourself to an abundant harvest, a beautiful lawn, pest free shrubs, trees, flowers and garden with the Gravelly Home'n-garden Sprayer!

Double - Acting, Positive Displacement Pump - Designed to handle Abrasive and Corrosive Spray Materials

1 heavy duty ball bearing - permanently lubricated and sealed.

2 crosshead and cylinder cover cast integral - straight line plunger action - longer cup life - all bearings shielded from spray materials.

3 self-oiling link pin and crosshead bearings with extra oil cavity.

4 stainless steel crosshead pin.

5 corrosion-proof chrome plated crosshead guide.

6 brass cylinder body chrome lining - not effected by corrosive action of spray material - longer life.

7 replaceable bronze valve seats.

8 stainless steel valves, valve springs, valve retainer.

9 oil and chemical resistant "o" ring gaskets.

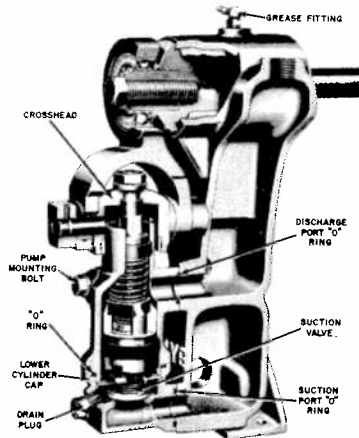

10 steel crankshaft - hardened, ground and polished for maximum rigidity - liberal bearing surface - long life.

11 extra large, precision sleeve bearings - special type to retain lubricant - replaceable.

12 one, easily accessible lubrication point - all other bearings lubricated permanently.

large, built-in air and vacuum chambers - provide smooth, quiet operation - eliminate surge and pulsation - increase valve and pressure gauge life.

suction and discharge may be connected to either side.

The heart of any sprayer is the pump. The pump used on the Gravelly Home'n - garden Sprayer is the nationally famous Myers Du-all Spray pump. This is a double acting, positive displacement pump that delivers ample capacity at all pressures. All working parts are enclosed and fully protected, require a minimum of maintenance.

These pumps are not limited to ineffective sprays! They will handle abrasive and corrosive sprays without damage!

SPECIFICATIONS

Tank Capacity:	15 Gallons
Pump Capacity:	2 G. P. M. at 340 Strokes per minute 3 G. P. M. at 500 Strokes per minute
Pressure Range:	30 to 300 pounds
Dimensions:	Length OA: 27-1/2" Width: 26" Height: 33-1/4"
Standard Equipment:	HD relief valve, stainless steel valve seat and ball valve, Pressure Gauge, 15 feet 3/8" oil-resistant Spray Hose with 6500 C spray gun, Mounting lugs for spray boom attachment.
Weight:	Packed for shipment: 130 pounds
Paint:	Myers special Epon two-coated baked enamel rust and corrosion resistant paint.
Wheels:	Caster type, 8x1.75 semi-pneumatic disc wheels.
Tank:	HD corrosion resistant steel arc welded, splash proof cover and filler opening, drain plug.
Agitator:	Spring loaded, self-adjusting, non-clogging jet type, holds spray material in suspension at all times.
Pump:	Myers Du-all (see illustration and pump specifications on left).
