HOW TO IDENTIFY TRACTORS

Two-Wheel Tractors

One should look for the serial number of the tractor first. If the serial can be located, then one can determine the year from the number. Serial numbers should be found:

1916-1936:	Model D
1937-1966:	Model L until 7.6 tractors Serial number riveted on top of fan housing (L-222)
1966-1972:	7.6, C8, C10, C10A, C12 tractors Serial number riveted on left side of of advanced casting
1972-Present:	500 and 5000 Series tractors Serial number on instrument panel
1984-Present:	5000 Series tractors Identification tag showing part number of tractor was added to bolt holding handlebar onto support tube

If one has reason to believe the serial number on the machine is not the original number or he cannot find the number:

Model D tractor (1916-1936) 2.5 h.p.

- a.. Only has a single wheel in the center.

Model L tractor (1937-1955) 5 h.p.

- a. The spark plug is slanted and uses a 15/16-inch wrench to remove.
- b. The end of the camshaft is visible on the intake side of the engine. An oil seal was used to keep oil from leaking.
- c. The oil pump on rear of engine has stamped in body L-103 (5-10 psi oil pump). The inlet and outlet parts on this pump were located in the engine crankcase because the pump body was not wide enough to incorporate them in the pump. This pump is about 1/2 as wide as later oil pumps.

Model L tractors (1955-1966) 6.6 h.p.

- a. The spark plug is slanted and uses a 15/16-inch wrench to remove.
- b. On the intake side of the engine there is a freeze plug at the end of the camshaft.
- c. The oil pump on rear of engine has stamped in body L-850. The inlet and outlet parts on this pump are cast into the body. This pump also used a gasket on each side of the pump body.

- d. Began using aluminum carburetor in early sixties.
- e. To determine an LI tractor (intermediate speed) versus another L model. The LI tractor had a bolt and nut attached on the right side axle housing. This bolt does not attach anything together. (See picture on cover of April, 1963 Model L parts list and can see bolt.)

Model 7.6 (1966-1976)

- a. Changed position of spark plug to vertical instead of angled as in past. The spark plug is a standard size.
- b. The oil pump on rear of engine has stamped in body 18073. The inlet and outlet ports on this pump are in pump body. This pump used no gaskets on pump body.
- c. Began using Kohler engines in 1967. One can use engine serial number and spec. number to determine age.

Four-Wheel Tractors

One should look for the serial number of the tractor first. If the serial number can be located then one can determine the year from the number. Serial numbers should be found:

- | | |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1964: | Westchester |
| 1967-1971: | 400 Series
Serial number riveted on left side of advanced casting on Westchester - 400 Series |
| 1971-1978: | 800 Series
Early 800 Series serial number riveted on top of engine adaptor plate.
Later 800 Series serial number glued or riveted on seat pan support bracket underneath seat pan. |
| 1978-Present: | 8000 Series
Serial number is glued on instrument panel.
1984-Present identification tag showing part number of tractor was also added to seat pan support bracket. |

If one has reason to believe the serial number on the machine is not the original number or he cannot find the number:

400 Series tractor (2-wheel tractor transmission)

- a. Early 400 Series had open gear steering (#11128) (1967-1970)
- b. Later 400 Series had enclosed steering box (1970-1971)

800 Series tractor (8 speed transmission)

- a. Early 800 Series had enclosed steering box (1971-1975)
- b. Later 800 Series had rack & pinion steering (1976-1978)
- c. Early 800 Series had keyed forward and reverse clutches (18049). Transmission case was painted inside and had limited slip differential. (1971-1974)
- d. Later 800 Series had splined, cam actuated Fwd-Rev clutches (20449). Should be able to see splines on shaft that clutches slide on. (1975-1978)
- e. All 800 Series tractors used a steering wheel (19448) that bolted onto the steering shaft. (1971-1978)

8000 Series tractors (8 speed transmission)

- a. All 8000 Series have rack & pinion steering (1978-Present)
- b. Early 8000 Series had splined, cam actuated Fwd-Rev clutches (20449). Should be able to see splines on shaft that clutches slide on. (1978-9/1/82)
- c. Later 8000 Series have a different Fwd-Rev clutching mechanism using long flat springs. The clutches themselves have an aluminum cup on the back of the clutch hub. (9/1/82-Present)
- d. All 8000 Series tractors used a steering wheel attached to the steering shaft by a taper and spline. (1978-Present),
- e. If the tractor has a long frame (4" longer than standard), then it must be 1980 or newer. However, one cannot determine the age of a short frame tractor by the frame length.
- f. Changed support in bottom of steering shaft from bearing support (21148) and spherical bearing (21147) to a one piece zinc steering support (35064). (9/1/83-Present)

8000 G Series tractors (8 speed transmission)

- a. Redesign with changes in steering, linkages, long frame std., tighter turning radius, and component locations. (8/15/85)

NOTE: The age of 400, 800, and 8000 Series tractors can also be determined by the spec. and serial of the engine if the engine has not been changed.

NOTES

HOW TO IDENTIFY TRACTORS BY ENGINE

Kohler

Many Kohler engines have been used over the years. Please refer to our Kohler engine list to determine tractor model numbers from the engine type. From the serial number one can determine the year.

① E - 1 7 2 4 5 2 ② 9 2 7 6 4 3 0 ③ 1 0 0 2 6 6 9 2

Year of Manufacture* identified by: a Letter/First Two Digits/If eight digit number - First Three Digits

* Year of Manufacture

SERIAL NUMBER SIGNIFICANCE	(1)	(2)	(3)
(Primarily a source of manufacturing history)			
A 1965	10-19	1969	100-109
B 1966	20-29	1970	110-119
C 1967	30-39	1971	120-129
D 1968	40-49	1972	130-139
E 1969	50-59	1973	140-149
	60-69	1974	150-
	70-72	1975	1985
	73-79	1976	
	80-89	1977	
	90-94	1978	
	95-99	1979	

Remaining digits are a factory code

Briggs and Stratton

B and S engines were never used on any two-wheel tractor. Four-wheel tractor uses are:

Model 816-S	(1974-1978)
Model 8160	(1978)
Model 8161	(1978)
Model 8166	(1979)
Model 8167	(1979)
Model 8169	(1980)
Model 8162-B	(1979 and 1984)
Model 8163-B	(1979-present)

Stamped in blower housing one will find model number, type and code number. From the code number one can determine the year. The first two digits correspond to the year of manufacture. The second two digits correspond to the month of manufacture. The third two digits correspond to the day of manufacture. The last two digits indicate which assembly line the engine was built on.

Example: 84120611
84 = 1984
12 = December
06 = Sixth day
11 = Assembly line #11

Onan

Onan NB engine, single cylinder, 10-12 h.p.

NB-MS/1846 A	(10 h.p.)	Model 424	(1970-1971)
NB0MS/1847 A	(12 h.p.)	Model 430	(1970-1971)

Onan CCKA engine, twin cylinder, cast iron, 16.5 h.p.

CCKA-MS/1831 G		Model 450	(1968-1970)
CCKA-MS/1897 G		Model 450	(1968-1970)
CCKA-MS/1949 G		Model 450	(1968-1970)
CCKA-MS/2043 G		Model 450	(1968-1970)
CCKA-MS/2111 G			
CCKA-MS/2567 G	(800-8000 Series)		(1971-1981)
CCKA-MS/2813 J	816, 817, 8171,		
CCKA-MS/3110 J	8177, 8179		
CCKA-MS/3612 J			

Onan B43 engine, twin cylinder, aluminum with cast iron sleeves, 16 h.p.

B43M-GA016/3422A		Model 816-T	(1978)
		Model 8162-T	(1979-1980)
		Model 8163-T	(1979-1980)

Onan B48 engine, twin cylinder, aluminum with cast iron sleeves, 18 h.p.

B48M-GA018/3423A		Model 818-T	(1978)
		Model 8182-T	(1979-1980)
		Model 8183-T	(1979-1980)

Onan B48 engine, twin cylinder, aluminum with cast iron sleeves, 19.9 h.p.

B48G-GA019.9/3738B		Model 8199	(1980-1981)
--------------------	--	------------	-------------

For the serial number one can determine the year. Serial number of Onan engines contain one letter and then 9 or 10 digits. The letter corresponds to the month the engine was produced and the next two digits correspond to the year.

A	B	C	D	E	F	G	H	I	J	K	L
Jan.	Feb.	March	April	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.

Example: L845487021

L = December

84 = 1984

HOW TO IDENTIFY 30 - INCH MOWERS

LH Mower: Rotor plate on top of gearbox will turn with blade. Rotor plate is about the size of a 50 cent piece. Takes vertical shaft, P/N 13210 (RO 322)

Small plug to fill oil in top of housing. Takes vertical shaft P/N 13197 (RO 337) or vertical shaft P/N 13198 (RO 343)

Large plug to fill oil in top of housing.
Takes vertical shaft P/N's:

- a. 12851 which is replaced by kit 20678 consisting of 20676 shaft, 20626 weldment
- b. 19844 which is replaced by shaft 20676
- c. 20676

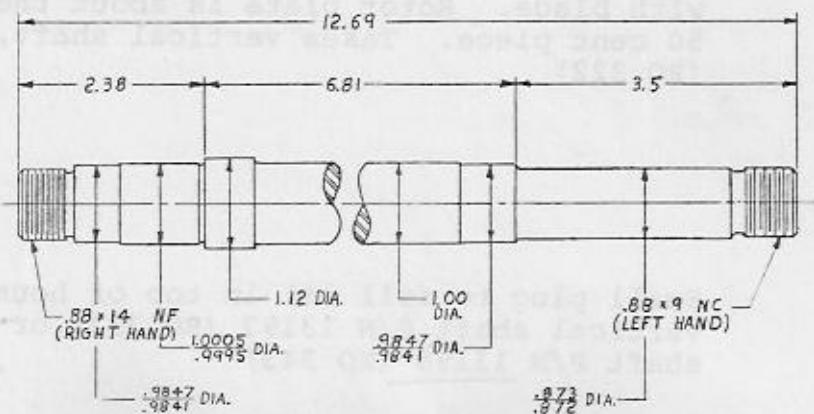

Small grease fitting in top of housing. Takes vertical shaft P/N 22520

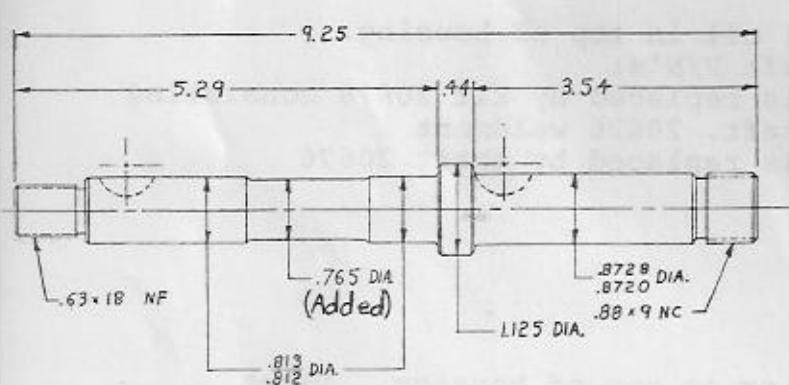

Small grease fitting in top of housing. Casting is stronger than previous casting. Takes vertical shaft P/N 22520.

30 INCH MOWER DRIVE SHAFTS
 (VERTICAL)

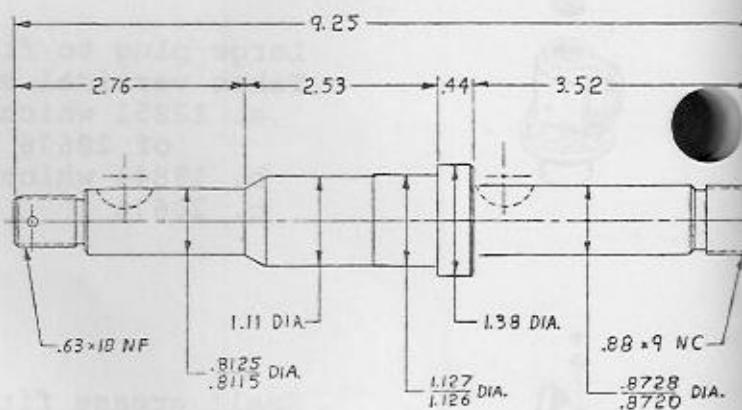

PN. 13210 (1952) LEFT HAND)

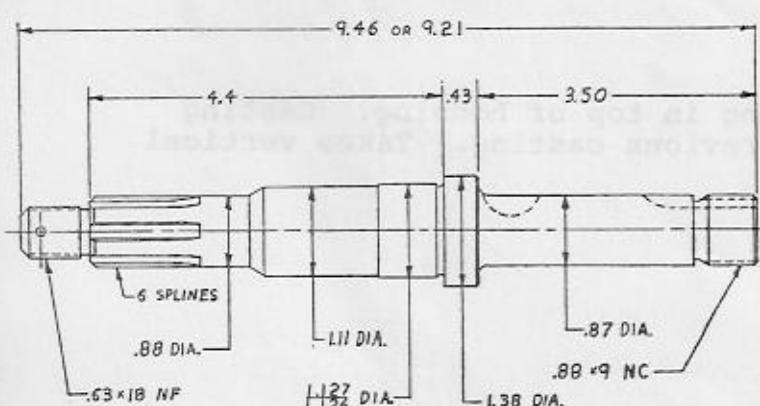

PN. 13197 (1956)

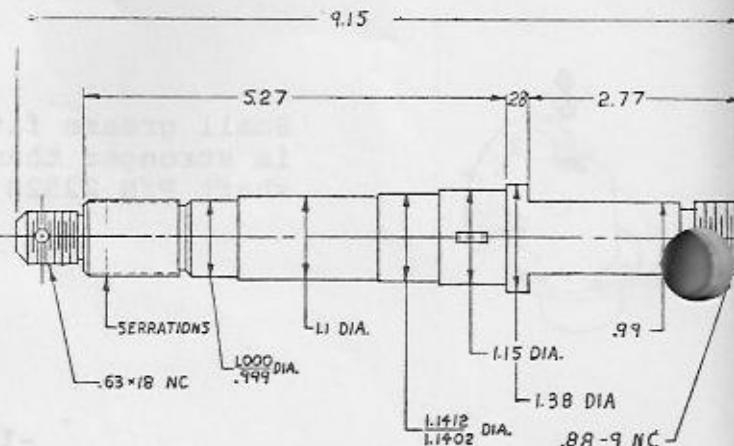

PN. 13198 (1957)

PN. 20676 (1973)

PN. 22520 (1976)

GRAVELY 2-WHEEL TRACTORS BY YEAR(S), BY MODEL

YEAR(S)	MODEL	DESCRIPTION
1916-36	Model "D"	1-Wheel Tractor, Gravely Engine, 2.5 HP
1937-55	Model "L"	2-Wheel Tractor, Gravely Engine, 5.0 HP, 8 Lead Worm, Fast Speed
1955-66	Model "L"	2-Wheel Tractor, Gravely Engine, 6.6 HP, 8 Lead Worm, Fast Speed
	Model "LI"	6 Lead Worm, Inter. Speed
	Model "LS"	4 Lead Worm, Slow Speed
1963	Model "L8"	2 Speed Axle, Swiftmatic Transmission
1966-76	Model "C"	2-Wheel Tractor, Gravely Engine, 7.6 HP, 8 Lead Worm, Fast Speed
	Model "CI"	6 Lead Worm, Inter. Speed
	Model "CS"	4 Lead Worm, Slow Speed
	Model "C8"	2 Speed Axle, Swiftmatic Transmission
<u>1976</u>		Gravely stopped building the 7.6 HP 2-wheel tractor
1967	Commercial 10 "C-10"	Kohler Engine, 10 HP, Fast Speed, Starter Generator
1968	Commercial 10A "C-10A"	Kohler Engine, 10 HP, 2-Speed, Swiftmatic Transmission, Alternator
1969	Commercial 12 "C-12"	Kohler Engine, 12 HP, 2-Speed Axle, Swiftmatic Transmission, Alternator
1970-72	Commercial 8 "C-8"	Kohler Engine, 8 HP, 2-Speed Axle, Swiftmatic Transmission, Alternator
<u>1972-77</u>	Model 520	Kohler Engine, 8 HP, Manual Start, 6 Lead Worm, Intermediate Speed
	Model 521	Kohler Engine, 8 HP, Manual Start, 4 Lead Worm, Slow Speed
	Model 522	Kohler Engine, 8 HP, Electric Start, 6 Lead Worm, Intermediate Speed
	Model 524	Kohler Engine 8 HP, Manual Start, 2 Speed Axle, Swiftmatic Transmission
	Model 526	Kohler Engine 8 HP, Electric Start, 2 Speed Axle, Swiftmatic Transmission
	Model 546	Kohler Engine, 10 HP, Electric Start, 2 Speed Axle, Swiftmatic Transmission
	Model 564	Kohler Engine, 12 HP, Manual Start, 2 Speed Axle, Swiftmatic Transmission, Remote Air Cleaner
	Model 566	Kohler Engine, 12 HP, Electric Start, 2 Speed Axle, Swiftmatic Transmission

2-WHEEL TRACTORS (CONT'D)

YEAR(S)	MODEL	DESCRIPTION
1977-80	Model 5200	Kohler Engine, 8 HP Manual Start, 6 Lead Worm, Intermediate Speed
	Model 5210	Kohler Engine, 8 HP, Manual Start, 4 Lead Worm, Slow Speed
	Model 5240	Kohler Engine, 8 HP, Manual Start, 2-Speed Axle, Swiftamatic Transmission
	Model 5260	Kohler Engine, 8 HP, Electric Start, 2-Speed Axle, Swiftamatic Transmission
	Model 5640	Kohler Engine, 12 HP, Manual Start, 2-Speed Axle, Swiftamatic Transmission
	Model 5660	Kohler Engine, 12 HP, Electric Start, 2-Speed Axle, Swiftamatic Transmission
	Model 5460	Kohler Engine, 10 HP, Electric Start, 2-Speed Axle, Swiftamatic Transmission
	Model 5243 Commercial	Roofer, Kohler Engine, 8 HP, Manual Start, 2-Speed Axle, Swiftamatic Transmission
	Model 5245 Commercial	Kohler Engine, Commercial 8 HP, Manual Start, 2-Speed Axle, Swiftamatic Transmission
	Model 5265 Commercial	Kohler Engine, Commercial 8 HP, Electric Start, 2-Speed Axle, Swiftamatic Transmission
1977-80	Model 5645 Commercial	Kohler Engine, Commercial 12 HP, Manual Start, 2-Speed Axle, Swiftamatic Transmission
	Model 5665 Commercial	Kohler Engine, Commercial 12 HP, Electric Start, 2-Speed Axle, Swiftamatic Transmission
1980-85	Model 5200 Homeowner	Kohler Engine, 8 HP, Manual Start, 6 Lead Worm, Intermediate Speed
	Model 5240 Homeowner	Kohler Engine, Homeowner 8 HP, Manual Start, 2-Speed Axle, Swiftamatic Transmission
	Model 5260 Homeowner	Kohler Engine, Homeowner 8 HP, Electric Start, 2-Speed Axle, Swiftamatic Transmission, 3 Amp Charging System
1980-85	Model 5645 Professional	Kohler Engine, Professional 12 HP, Manual Start, 2-Speed Axle, Swiftamatic Transmission
	Model 5665 Professional	Kohler Engine, Professional 12 HP, Electric Start, 15 Amp, 2-Speed Axle, Swiftamatic Transmission
1985	Model 5465	Kohler Engine, 10 HP, Electric Start, 2-Speed Axle, 15 Amp, Swiftamatic Transmission, Steering Brake Std.

2-WHEEL TRACTORS (CONT'D)

YEAR(S)	MODEL	DESCRIPTION
1986	Model 5200	Kohler Engine, 8 HP, Recoil Start, 6 Lead Worm, Intermediate Speed, With or Without Steering Brakes Std.
	Model 5240	Kohler Engine, 8 HP, Recoil Start, 2-Speed Axle, Swiftamatic Transmission, With or Without Steering Brakes Std.
	Model 5260	Kohler Engine, 8 HP, Electric Start, 2-Speed Axle, Swiftamatic Transmission, 3 Amp Charging System, With or Without Steering Brakes Std.
	Model 5465	Kohler Engine, 10 HP, Electric Start, 2-Speed Axle, Swiftamatic Transmission, 15 Amp Charging System, With or Without Steering Brakes Std.
	Model 5645	Kohler Engine, 12 HP, Recoil Start, 2-Speed Axle, Swiftamatic Transmission, With or Without Steering Brakes Std.
	Model 5665	Kohler Engine, 12 HP, Electric Start, 2-Speed Axle, Swiftamatic Transmission, 15 Amp Charging System, With or Without Steering Brakes Std.

NOTES

GRAVELY 4-WHEEL TRACTORS BY YEAR(S), BY MODEL

YEAR(S)	MODEL	DESCRIPTION
1964	Westchester	
1967	Model 424	Kohler Engine, 10 HP, Starter-Generator, 4-Speed Planetary Transmission
1968-71	Model 424	Kohler Engine, 10 HP, Alternator, 4-Speed Planetary Transmission
	Model 424	Onan NB Engine, 10 HP, Alternator, 4-Speed Planetary Transmission
	Model 430	Kohler Engine, 12 HP, Alternator, 4-Speed Planetary Transmission
	Model 430	Onan NB Engine, 12 HP, Alternator, 4-Speed Planetary Transmission
1969	Model 432	Kohler Engine, 14 HP, Alternator, 4-Speed Planetary Transmission
1970	Model 450	Onan Engine, 16.5 HP, Twin Cylinder, Cast Iron, 4-Speed Planetary Transmission, Electric Lift
1970-77	<u>Model 408</u>	Lawn Tractor, Kohler Engine, 8 HP, V-Belt Drive, 4-Speed Transmission
1971-76	<u>Model 816</u>	Onan Engine, 16.5 HP, Twin Cylinder, Cast Iron, 8-Speed Transmission, Hydraulic Lift
1972-78	Model 810	Kohler Engine, 10 HP, 8-Speed Transmission
	Model 812	Kohler Engine, 12 HP, 8-Speed Transmission
1972-74	Model 814	Kohler Engine, 14 HP, 8-Speed Transmission
1974-78	Model 816-S	B & S Engine, 16 HP, Single Cylinder, 8-Speed Transmission
1977	Model 817	Onan Engine, 16.5 HP, Twin Cylinder, Cast Iron, 8-Speed Transmission, Hydraulic Lift
1978	Model 816-T	Onan Engine, 16 HP, Twin Cylinder, 8-Speed Transmission, Hydraulic Lift
	Model 818-T	Onan Engine, 18 HP, Twin Cylinder, 8-Speed Transmission, Hydraulic Lift
1978	Model 8120	Kohler Engine, 12 HP, 8-Speed Transmission, Manual Lift (Commercial)
	Model 8121	Kohler Engine, 12 HP, 8-Speed Transmission, Hydraulic Lift (Commercial)
1978	Model 8160	B & S Engine, 16 HP, Single Cylinder, 8-Speed Transmission, Manual Lift (Commercial)
	Model 8161	B & S Engine, 16 HP, Single Cylinder, 8-Speed Transmission, Hydraulic Lift (Commercial)
	Model 8171	Onan Engine, 16.5 HP, Twin Cylinder, Cast Iron, 8-Speed Transmission, Manual Lift (Commercial)
1979-81 (1985)	Model 8102 (Special Run)	Kohler Engine, 10 HP, 8-Speed Transmission, Manual Lift
1979-85	Model 8122	Kohler Engine, 12 HP, 8-Speed Transmission, Manual Lift
	Model 8123	Kohler Engine, 12 HP, 8-Speed Transmission, Hydraulic Lift

4-WHEEL TRACTORS (CONT'D)

YEAR(S)	MODEL	DESCRIPTION
1979-80	Model 8162-T	Onan Engine, 16 HP, Twin Cylinder, 8-Speed Transmission, Manual Lift
	Model 8163-T	Onan Engine, 16 HP, Twin Cylinder, 8-Speed Transmission, Hydraulic Lift
	Model 8182-T	Onan Engine, 18 HP, Twin Cylinder, 8-Speed Transmission, Manual Lift
	Model 8183-T	Onan Engine, 18 HP, Twin Cylinder, 8-Speed Transmission, Hydraulic Lift
1979 (1984, 85)	Model 8162-B (Special Run)	B & S Engine, 16 HP, Single Cylinder, 8-Speed Transmission, Manual Lift
1979-85	Model 8163-B	B & S Engine, 16 HP, Single Cylinder, 8-Speed Transmission, Hydraulic Lift
1979	Model 8126	Kohler Engine, 12 HP, Single Cylinder, 8-Speed Transmission Manual Lift (Commercial)
	Model 8127	Kohler Engine, 12 HP, Single Cylinder, 8-Speed Transmission Hydraulic Lift (Commercial)
	Model 8166	B & S Engine, 16 HP, Single Cylinder, 8-Speed Transmission, Manual Lift (Commercial)
	Model 8167	B & S Engine, 16 HP, Single Cylinder, 8-Speed Transmission, Hydraulic Lift (Commercial)
	Model 8177	Onan Engine, 16.5 HP, Twin Cylinder, Cast Iron, 8-Speed Transmission, Hydraulic Lift (Commercial)
1980	Model 8128	Kohler Engine, 12 HP, 8-Speed Transmission, Manual Lift Long Frame (Commercial)
1980-81	Model 8129	Kohler Engine, 12 HP, 8-Speed Transmission, Hydraulic Lift, Long Frame (Commercial)
	Model 8169	B & S Engine, 16 HP, 8-Speed Transmission, Hydraulic Lift, Long Frame (Commercial)
	Model 8179	Onan Engine, 16.5 HP, Twin Cylinder, Cast Iron, 8-Speed Transmission, Hydraulic Lift, Long Frame (Commercial)
	Model 8199	Onan Engine, 19.9 HP, Twin Cylinder, Aluminum, 8-Speed Transmission, Hydraulic Lift, Long Frame (Commercial)
1980 (1984, 85)	Model 8173-KT (Special Run)	Kohler Engine 17 HP, Twin Cylinder, 8-Speed Transmission, Hydraulic Lift (Consumer)
	Model 8193-KT	Kohler Engine, 19 HP, Twin Cylinder, 8-Speed Transmission Hydraulic Lift (Consumer)
1981-85	Model 8179-KT	Kohler Engine 17 HP, Twin Cylinder, 8-Speed Transmission, Hydraulic Lift, Long Frame (Professional)
	Model 8199-KT	Kohler Engine 19 HP, Twin Cylinder, 8-Speed Transmission, Hydraulic Lift, Long Frame (Professional)

4-WHEEL TRACTORS (CONT'D)

YEAR(S)	MODEL	DESCRIPTION
1977	Model GMT-900	Continental Engine, 27 HP, Four Cylinder, Water Cooled 8-Speed Transmission
1977-82	Model GMT-9000	Continental Engine, 27 HP, Four Cylinder, Water Cooled 8-Speed Transmission
1983-86	Model 1138	B & S Engine, 11 HP, I.C., 6-Speed Foote Transmission, V-Belt Drive. Includes 38" 2-Spindle Mower
1986	Model 1132	B & S Engine, 11 HP, I.C., 6-Speed Foote Transmission, V-Belt Drive. Includes 32" Single Blade Mower
1985-86	Model 7173-H	Kohler Engine, 17 HP, Twin Cylinder, Sundstrand Hydro Transmission, Hydraulic Lift
1985	Model 8172-KT	Kohler Engine, 17 HP, Twin Cylinder, 8-Speed Transmission, Manual Lift
1986	Model 8122-G	Kohler Engine, 12 HP, 8-Speed Transmission, Manual Lift, Flip-Up Hood, Long Frame, Shorter Turning Radius
	Model 8123-G	Kohler Engine, 12 HP, 8-Speed Transmission, Hydraulic Lift, Flip-Up Hood, Long Frame, Shorter Turning Radius
	Model 8163-G	B & S Engine, 16 HP, 8-Speed Transmission, Hydraulic Lift, Flip-Up Hood, Long Frame, Shorter Turning Radius
	Model 8179-G	Kohler Engine, 17 HP, Twin Cylinder, 8-Speed Transmission, Hydraulic Lift, Flip-Up Hood, Long Frame, Shorter Turning Radius
	Model 8199-G	Kohler Engine, 19 HP, Twin Cylinder, 8-Speed Transmission, Hydraulic Lift, Flip-Up Hood, Long Frame, Shorter Turning Radius

NOTES

TRACTOR SERIAL NUMBER MODELS
By Year of Manufacture

		Four-Wheel		408 Tractor	
Serial Number	Year	Serial Number	Year	Serial Number	Year
2465 — 2781	1939	000100A - 003848A	1969	01003 - 01845	1970
2782 — 4105	1940	003849A - 007522A	1970	01846 - 04021	1971
4106 — 6054	1941	007523A - 10877A	1971	04022 - 04743	1972
6055 — 7454	1942	10878A - 15044A	1972	04743 - 05856	1973
7455 — 9130	1943	15045A - 20480A	1973	05857 - 7224	1974
9131 — 11213	1944	20481A - 26289A	1974	07225 - 7697	1975
11214 — 13320	1945	26290A - 28838A	1975		
13521 — 18957	1946				
18958 — 27996	1947				
27997 — 38755	1948	In the middle of October 1975, the serial numbers were changed and started at 200,000. This system includes attachment serial numbers.			
38756 — 48399	1949

		567266 -	1985		
		5108709 -	1985		

Note: These serial numbers are approximate. For exact year of manufacture contact the factory.

Year	Letter of Mfg. No.	Serial Numbers Incl.
1957	A	SR-1 - SR-1663
1958	B	SR-1664 - SR-3948
1959	C	SR-3949 - SR-7364
1960	D	SR-7365 - SR-9860
1961	E	SR-9861 - SR-11,959
1962	F	SR-11,960 - SR-14,737
1963	G	SR-14,738
1964	H	WESTCHESTER

Note: "J" Serial Numbers in 1967 and 1968 include
4-Wheel Tractors.

NOTES

NOTES

NOTES

PRODUCT CHANGES FROM 84/85 to 85/86

5000 SERIES

- I. TRANSMISSION - No change
- II. FRAME
 - 1. New hood with no hole for gas cap
 - 2. New battery box and hold down
- III. ENGINE, FUEL, EXHAUST
 - 1. Stellite intake and exhaust valves with rotators on 8 HP
 - 2. Stellite exhaust valve and rotator on 10 HP
 - 3. Fuel filter standard
- IV. ELECTRICAL
 - 1. New ground to frame with a stud bolt
 - 2. Relocate regulator/rectifier

8000 - G SERIES

I. TRANSMISSION

1. Tapered hubs and axles
2. Forward/Reverse clutch linkage
3. Brake linkage
4. Hi/Lo linkage is now adjustable

II. HYDRAULICS

1. Filter as a reservoir
2. New lines & hoses
3. Relocate valve

III. STEERING

1. Tighter turning radius - 26.5"
2. Bushing in front axle - all

IV. FRAME

1. Long frame standard
2. Flip up hood
3. New grill
4. Battery and fuel tank location reversed
5. New seat with (2) seat switches
6. New instrument panel

V. ENGINE, FUEL, EXHAUST

1. Kohler twin closure plate and adapter plate combined - now uses (2) .125 races
2. New adapter plate for Kohler 12 HP and B&S 16 HP using (2) .125 races
3. New exhaust on B&S 16 HP
4. Fuel filters standard
5. Stellite exhaust valve with rotator on 10 HP, 12 HP, and KT Kohler engines
6. New throttle cables with bolt on bracket
7. Push-pull type choke
8. New fuel tank - fitting location changed and will replace old tank P/N 12383

VI. ELECTRICAL

1. Sealed beam headlights
2. New wiring
3. Ammeter standard - all
4. Hourmeter standard on KT's
5. Time delay switch

PRO LINE

I. TRANSMISSION

1. Sprocket on transmission is 12 tooth vs. 8 tooth -
50% increase
2. Top ground speed 6.00 MPH vs. 4.00 MPH

II. FRAME

1. New instrument panel
2. Slotted hole in bearing support weldment

III. MOWER

1. New 36" multi-mode mower

PM-50

I. TRANSMISSION

1. Positive neutral detent

II. FRAME

1. New seat with (2) seat switches
2. 1/2 vs. 3/8 bolt in advance casting

III. STEERING - No change

IV. ENGINE, FUEL, EXHAUST

1. Heat shield
2. Muffler shield

V. ELECTRICAL

1. Time delay switch
2. New wiring

PRO MASTER POWER UNIT

I. TRANSMISSION

1. Eight speed standard on 19 HP

II. FRAME

1. New footboards
2. New seat with (2) seat switches
3. New instrument panel
4. Offset brake levers on 19 HP tire chain clearance

III. STEERING - No change

IV. ENGINE, FUEL, EXHAUST

1. Kohler twin closure plate and adapter plate combined - now uses (2) .125 races
2. Fuel filter added
3. Stellite exhaust valves with rotators on Kohler twins

V. ELECTRICAL

1. Time delay switch
2. Hourmeter standard
3. New wiring

VI. LIFT

1. Hydraulic lift standard on 19 HP
2. Manual lift standard on 17HP

7173 - H

- I. TRANSMISSION - No change
- II. FRAME
 - 1. New front grille casting and related parts
- III. STEERING - No change
- IV. ENGINE, FUEL, EXHAUST - No change
- V. ELECTRICAL - No change
- VI. LIFT - No change

NOTES

MOWER CHANGES FROM 84/85 to 85/86

(5000 & 8000 Series)

40" & 50" (3 Blade) Mowers
Old and new interchangeable

1. New Belt Covers - quick removal, no tools required
2. New Leveling System - eccentric leveling in cams & wheels
3. New Height Adjustment lever - much stronger
4. New Axle Pivot Weldment - accommodates new height adjustment lever
5. Belt covers on 40" are not as wide for clearance for new axle pivot assembly.

60" MOWERS

Old mowers will not fit new G tractors (sharper turning radius allows front tire interference)
New mowers will fit all long frame 8000 tractors

1. Anti-Scalp Rollers standard
2. New Belt Covers - quick removal, no tools required
3. New Gearbox Support Plate - enlarged notch for longer Pivot Arm Weldment
4. New Pivot Arm Weldment - 1" longer for front wheel clearance
5. Added two 1/2 - 13 jam nuts to lift rod to prevent possible interference.

40" WING MOWER

1. Need to use 4 spacers #39015 and 4 bolts #180194 for twin cylinder tractors or for use with rear engine guard - increases clearance from rotating screen.

GRASS CATCHER FRAME

Old Blower Frame Kit will not fit new G tractors
New Blower Frame Kit will fit on all 8000 Series built after 9-1-82.

1. New Frame Weldment - added holes for wear tabs
2. Added Wear Tab - replaceable
3. New Support Weldment - provides clearance for new fwd/rev mechanism
4. New Support Rod - shorter for different support weldment

GRASS CATCHER HOSES

1. New hose material on boot kits and 3 grass catchers

MOWERS (Pro-Master)

ALL MOWERS

1. New Belt Covers - quick removal, no tools required

MOWERS (Pro)

1. New 36" Mower - multimode mower, 2 spindles
2. New Grass Catcher - plastic instead of aluminum or steel

SNOW ATTACHMENT CHANGES FROM 84/85 to 85/86

5000 Series

32 - INCH SNOWBLOWER

Old and new interchangeable

1. Reinforced Frame - stronger
2. Thicker Scraper Bar - lasts longer
3. Thicker Skids - lasts longer

WINDBREAKER CAB

Should fit all 5000 series tractors

1. New cab for operator comfort

8000 Series

40 & 48 - INCH SNOWBLOWERS

Old and new interchangeable

1. Thicker Scraper Bar - Lasts longer
2. Thicker Skids - lasts longer

44 - INCH POWER BRUSH

1. Power Brush completing kit - part number changes,
New kit and old kit are not interchangeable

CAB

Old and new are not interchangeable, a new cab fits G tractors

1. New cab accomodates changes

7173-H

48 - INCH SNOWBLOWER

Old and new interchangeable

1. Thicker Scraper Bar - lasts longer
2. Thicker Skids - lasts longer

PROMASTER 19 HP

48 - INCH SNOWBLOWER

Snowblower should not be used on old powerunits because cannot use chains and do not have slow speeds.

1. Uses 48" Snowblower for 7173-H
2. Must use adaptor kit number 40050 to attach

CAB

Fits 1985/1986 only

1. New cab for operator comfort

CHANGES IN ACCESSORIES FROM 84/85 to 85/86

5000 SERIES

STEERING BRAKE KIT (40683)

New kit will fit older 5000 series tractors, but old will not fit new tractors.

1. Added notches in handle bar linkage arm for clearance between arm and hood.

8000 SERIES

FRONT DRIVE KIT (40252)

New kit will fit older 8000 series tractors, but old kit will not fit G tractors.

1. L.H. and R.H. Brackets (11697, 11698) have the top corners cut off to clear new style grille. Changed to 40324 & 40325.

LIFT ASSIST KIT (40251)

New kit will fit older 8000 series tractors, but old kit will not fit G tractors.

1. L.H. and R.H. Latch Assemblies (11275, 11274) have handles bent outward to clear wider hood, changed to 40263 & 40264.
2. Replaced Latch Pins (11279) with Latch Pins (31688).

INDIVIDUAL REAR WHEEL BRAKE KIT (40250)

New kit will not fit old tractors and old kit will not fit new G tractors.

1. Brake Links changed from 35023 & 20192 to 40327.
2. Brake Rods changed from 35018 & 20193 to 40636.
40636 rod is same as 35018 except added a hole.
3. L.H. Brake Pedal changed from 35019 to 40635. Changed the way parts are welded for clearance.
4. Brake Drums changed from 20184 to 40328. Tapered axles on new brake drums.

WEIGHT RACK (40638)

New kit will fit older 8000 series tractors, but old kit will not fit G tractors.

1. Angle Supports changed from 20436 & 20437 to 40644 & 40640. Changed because shorter turning radius caused tire interference.
2. Left and Right Supports changed from 20442 & 20441 to 40642. Changed because old supports interfered with new hood.
3. The Latch Pins were changed from 11279 to 31688.
4. L.H. and R.H. Brackets (11697, 11698) have the top corners cut off to clear new style grille. New part numbers are 40324 and 40325.
5. Two of the 1/2-13 x 1 1/2 inch bolts have changed to 1/2 - 13 x 2.25 inches.
6. Spacers have changed from 20435 to Nylon Bushings, 10174.

7. Cotter Pins have changed from 137228 to Hair Pins, 10405.
8. Support Weldment, 20440, has changed to 40643. Four (4) holes were added to accomodate the new angle supports.
9. The other four (4), 1/2 - 13 x 1 1/2 inch bolts have changed to 1/2 - 13 x 2 round head square neck bolts.
10. The Shaft changed from 20434 to 40639. The shaft is now shorter.

REAR PTO KIT (40709)

New kit will fit all 8000 series tractors made after 9-1-82.
Old kit will not fit new G tractors.

1. Made improvements in attaching the drive chain assembly to tractor frame.
2. Made improvements in reducing wear in the axle bearing retainer casting.
3. Old kit will fit new tractor if replace bracket 35151 with bracket 40707 and use additional hardware: 3 washers, 120389; one lock nut, 435507; and one 1/2 - 13 x 2 bolt, 180181.

LIFTABLE REAR HITCH (40701)

New kit will fit all 8000 series tractors. Old kit will also fit new G tractors.

1. Changed cross shaft weldment from 24375 to 40705. The new weldment has a stop to eliminate hitch from lifting too high.
2. Should try to use new hitch on tractors built after 9-1-82 whenever possible. Eliminates possibility of bending frd-rev clutch rod.

ENGINE GUARD (35401)

New and old Guard will fit all 8000 series including G tractors with Kohler or Briggs & Stratton engines. Must use new guard if also installing spacers for clearance on wing mower.

1. Enlarged cut out in bottom of guard to allow clearance for spacers for rear hitch.
2. Cannot be used with liftable rear hitch.
