From the serial number, one can determine the year. Serial numbers of Onan engines contain one letter and then 9-10 digits. The letter corresponds to the month the engine was produced, and the next two digits correspond to the year.

A-January, B-February, C-March, D-April, E-May, F-June, G-July, H-August, I-September, J-October, K-November, L-December.
